The abstention votes and null and void votes are not taken into account in order to determine whether or not the required majority has been achieved. For the purpose of calculating whether the quorum is reached, abstention voters are considered present and non-respondents are considered absent.

The identity and the capacity of the persons casting a vote on behalf of Senior, Executive and Full members will be verified through appropriate technological means.

Whenever the electronic voting procedure is applied, the President, assisted by the Director General, shall ensure that all Senior, Executive and Full members are aware that a vote is sought by electronic procedure. If 80 votes are in favour, 60 votes are against and 40 votes are abstentions, the required majority is reached.
The General Assembly approves the overall annual budget, transfers of property, rentals, borrowings and lending necessary to the activities of the Association, with or without mortgage.

The General Assembly receives reports on the Boards activities and decisions, approves the accounts of the preceding financial year, vote the budget for the coming financial year, fixes the amounts of annual fees, ratifies any decision taken by the Board on the creation or closure of Committees and debates all the items on the agenda.

Each member shall appoint its permanent representative and notify such appointment to the Association.

Senior, Executive and Full members may give a proxy to another Senior, Executive or Full member empowering it to represent it and vote in its name at the General Assembly Meeting. A Senior, Executive or Full member cannot receive more than two proxies from other Senior, Executive or Full members.

The Extraordinary General Assembly is convened under the same rules as the General Assembly.

ALTERATION TO THE ARTICLES OF ASSOCIATION

Art. 22. The Articles of Association may be altered by the Extraordinary General Assembly meeting on the proposal of the Board or of at least one fourth of the Association's voting members.

The General Assembly’s deliberations are only valid if two thirds of the Association’s voting members are present or represented.

Should this quorum not be reached, a new Extraordinary General Assembly meeting is convened after an interval of at least two weeks. It then deliberates on the same agenda, irrespective of the number of voting members present or represented.

Decisions are taken by two thirds majority of the votes of the voting members present or represented. Modifications of the Articles of Association are published in the Annexes of the Belgian State Gazette.
DISSOLUTION OF THE ASSOCIATION

Art. 23. The Extraordinary General Assembly may resolve to dissolve the Association and provide for the attribution of any property it may possess on the proposal either of the Board or of at least one half of the Association’s Senior and Executive members.

It determines the conditions of dissolution. It designates among the members one or several liquidators responsible for liquidating the Association’s property, invested with wide-ranging powers to realise its assets and discharge its liabilities.

After achievement of settlement operations and, if needed allocation of running costs representing the outstanding financial commitments, the assets in excess will be allocated to associations with similar or related objectives, in accordance with the General Assembly resolutions. Members have no rights on the Association assets included partial or total reimbursements of payments or cash donations made by members to help the Association.

The Extraordinary General Assembly meeting’s deliberations are only valid if two thirds of the Association’s voting members are present or represented. Should this quorum not be reached, a new Extraordinary General Assembly meeting is convened after an interval of two weeks. It may then deliberate irrespective of the number of voting members present or represented.
