Information package

v.2022

The voice of the Digital Security Industry

With more than 25 years of experience, Eurosmart gathers technological experts in the field of the Digital security. We advocate for security in digital interactions.
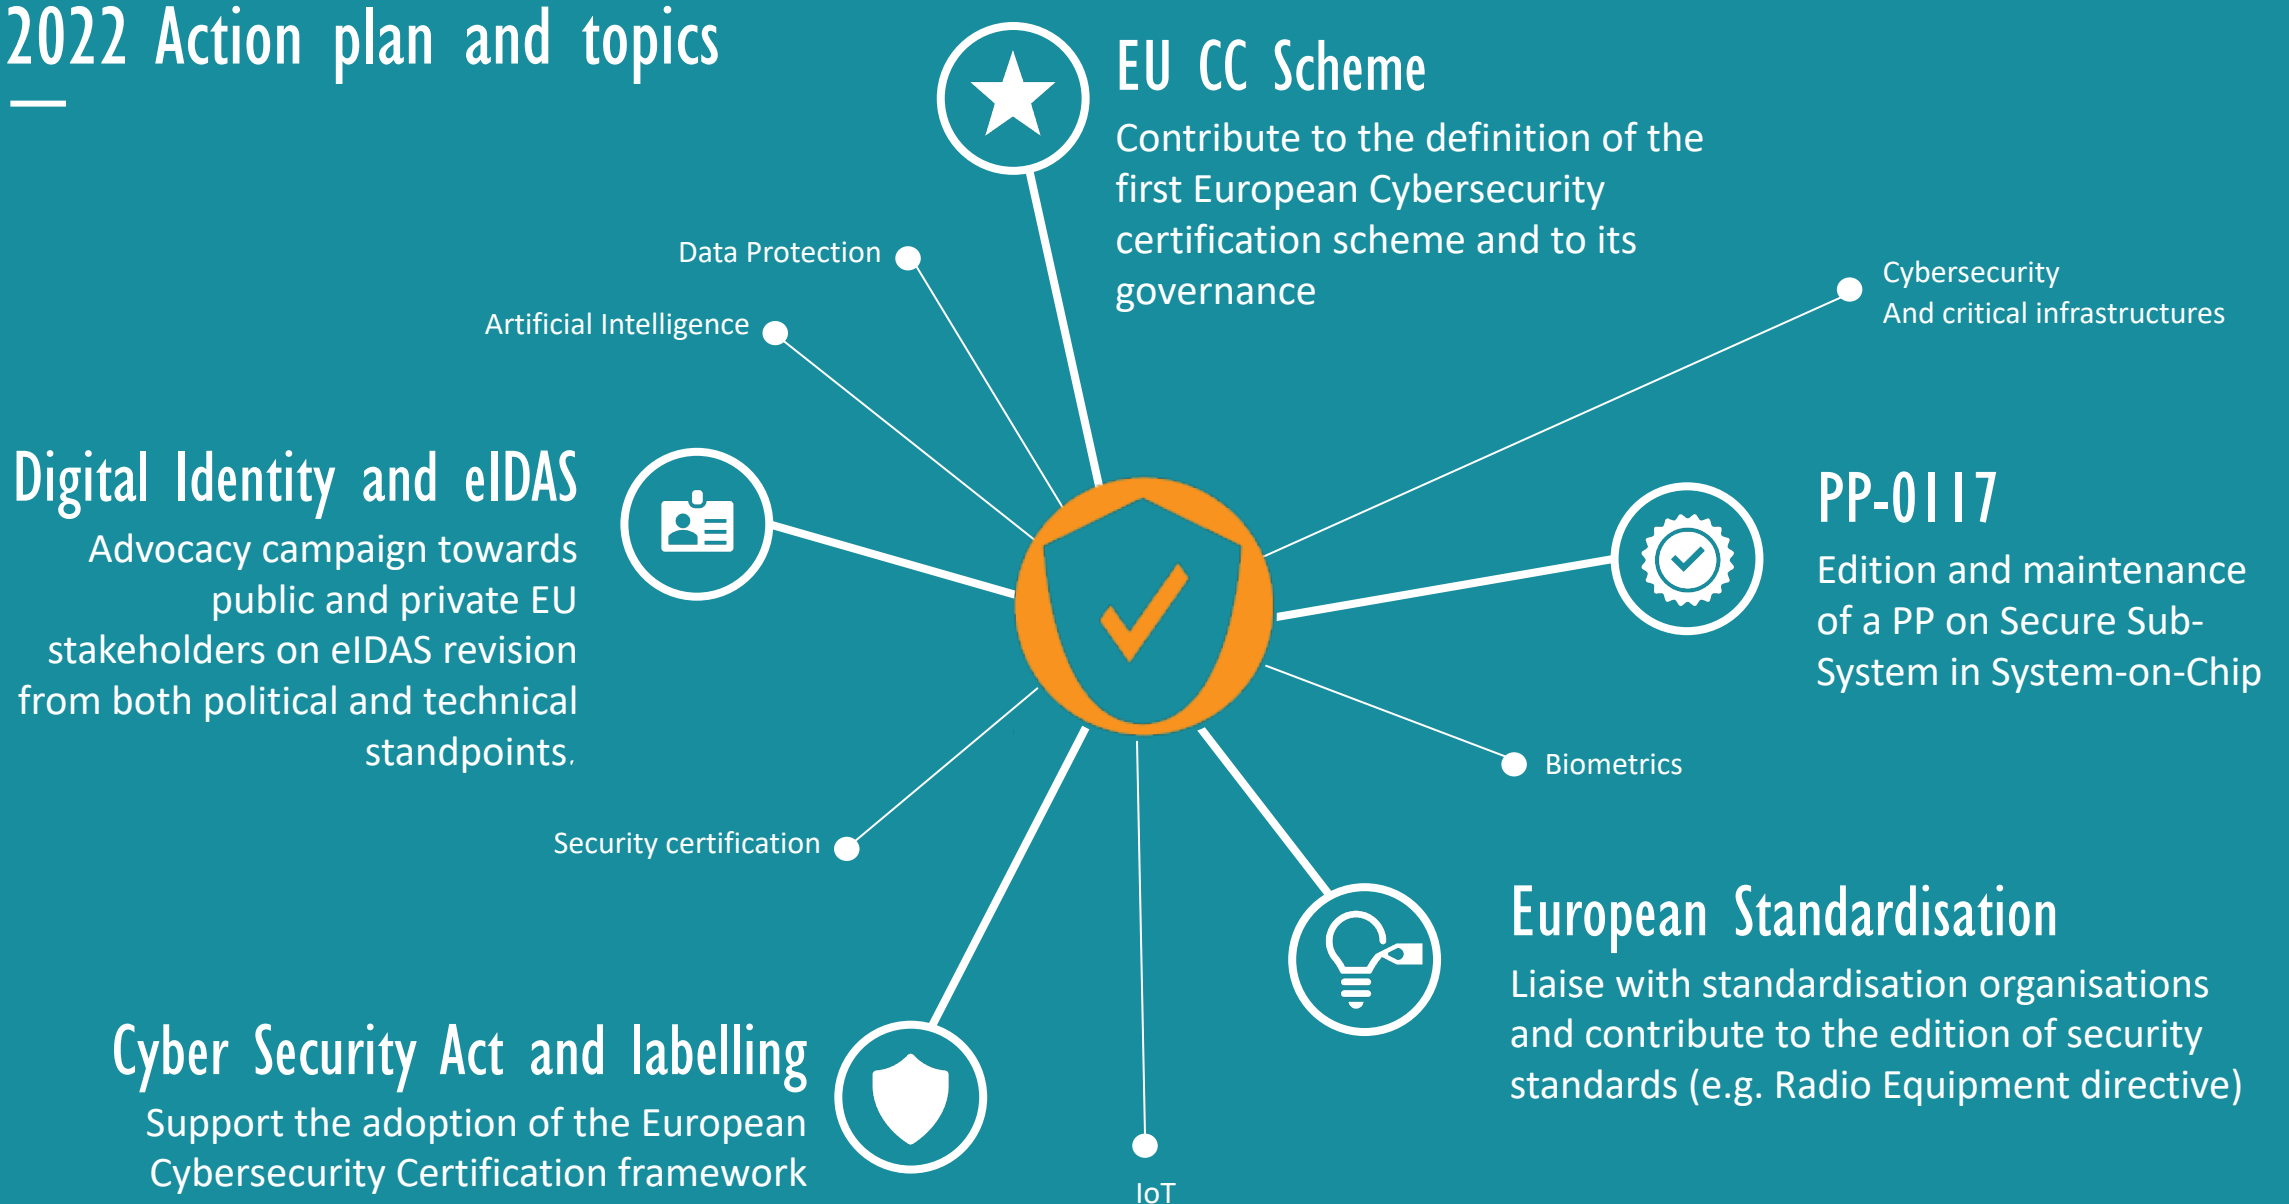

About Eurosmart

Eurosmart is an international non-profit association located in Brussels, and representing the Digital Security Industry. Founded in 1995, the association is committed to continuously improving quality and security applications and to supporting the development security standards.

Our members

—

Members are designers or manufacturers of secure elements, semiconductors, smart cards, systems on chip, High Security Hardware and terminals, biometric technology providers, system integrators, secure software and application developers and issuers. Members are also involved in security evaluation as laboratories, consulting companies, research organisations and associations.

2022 Action plan and topics
